Confidential computer software. Valid license from Micro Focus required for possession, use or copying. The information contained herein is subject to change without notice.

The only warranties for Micro Focus products and services are set forth in the express warranty statements accompanying such products and services. Nothing herein should be construed as constituting an additional warranty. Micro Focus shall not be liable for technical or editorial errors or omissions contained herein.

No portion of this product's documentation may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopying, recording, or information storage and retrieval systems, for any purpose other than the purchaser's internal use, without the express written permission of Micro Focus.

Notwithstanding anything to the contrary in your license agreement for Micro Focus ArcSight software, you may reverse engineer and modify certain open source components of the software in accordance with the license terms for those particular components. See below for the applicable terms.

U.S. Governmental Rights. For purposes of your license to Micro Focus ArcSight software, "commercial computer software" is defined at FAR 2.101. If acquired by or on behalf of a civilian agency, the U.S. Government acquires this commercial computer software and/or commercial computer software documentation and other technical data subject to the terms of the Agreement as specified in 48 C.F.R. 12.212 (Computer Software) and 12.211 (Technical Data) of the Federal Acquisition Regulation ("FAR") and its successors. If acquired by or on behalf of any agency within the Department of Defense ("DOD"), the U.S. Government acquires this commercial computer software and/or commercial computer software documentation subject to the terms of the Agreement as specified in 48 C.F.R. 227.7202-3 of the DOD FAR Supplement ("DFARS") and its successors. This U.S. Government Rights Section 18.11 is in lieu of, and supersedes, any other FAR, DFARS, or other clause or provision that addresses government rights in computer software or technical data.

Upgrading an Express License to ESM

This document provides information on how to upgrade an ESM Express license to ESM (appliance). If you are doing a fresh installation of ESM appliance, this information is in the *ESM Installation guide*.

Install New License

If you currently have an ESM Express license, then to deploy the new license file, use the `arcsight managersetup` command. Go through the setup wizard to select the new file and complete the setup process.

Refer to the *ESM Administrator's Guide* for details about the command.

Enable Peering

To enable peering to work after applying the ESM license that includes peering, enable port 9000 using the following commands:

```
[root@rhel7 ~]# firewall-cmd --zone=public --add-port=9000/tcp --permanent
```

```
[root@rhel7 ~]# firewall-cmd --reload
```

Use this command to check that port 9000 is enabled:

```
[root@rhel7 ~]# iptables-save | grep 9000
```

You should get response similar to this:

```
-A IN_public_allow -p tcp -m tcp --dport 9000 -m conntrack --ctstate NEW -j  
ACCEPT
```

Usage Notes

- ESM in distributed mode is not supported on an appliance, even with an ESM license. Only ESM in compact mode is supported.
- Risk Insight is not supported on an appliance, even with an ESM license.
- The High Availability Module is available as an add-on after you apply the ESM license.
- Pattern Discovery is available as an add-on after you apply the ESM license.

Send Documentation Feedback

If you have comments about this document, you can [contact the documentation team](#) by email. If an email client is configured on this computer, click the link above and an email window opens with the following information in the subject line:

Feedback on Upgrading an ESM Express License to ESM: Technical Note (ArcSight ESM 7.2)

Just add your feedback to the email and click send.

If no email client is available, copy the information above to a new message in a web mail client, and send your feedback to arcsight_doc@microfocus.com.

We appreciate your feedback!
