

Getting Started with ArcSight Express™

The ArcSight Express solution can be comprised of two appliances, the ArcSight Express Appliance and the ArcSight Storage Appliance depending on the model purchased.

In addition to this document, you will need the following documents to install both the appliances and connect to them for the first time:

- *Product Information Guide* which is included with ArcSight Express
- *Getting Started with ArcSight Logger* (if and when applicable)

Installation Instructions

1. Set up ArcSight Storage Appliance. See the *Getting Started with ArcSight Logger* document, available as a download from the ArcSight Customer Support download site) for details.
2. Follow the instructions in the *Product Information Guide* for unpacking ArcSight Express Appliance and its accompanying accessories.
3. Securely mount both appliances in a rack, and making the rear panel connections.
4. Attach a monitor, keyboard and mouse to the system.
5. Power on the appliance and wait for the system to boot.

CAUTION

Read through the instructions, cautions, and warnings in the *Product Information Guide* carefully. Failing to do so can result in bodily injury or system malfunction.

Where to go from here

ArcSight Express has the Oracle Enterprise Linux operating system installed. When you boot the system for the very first time, you are required to set up the preferences for Oracle Enterprise Linux. When setting preferences in the First Boot Wizard for the Oracle Enterprise Linux, please note that the License agreement you accept is for Oracle Linux only.

Refer to the *ArcSight Express Configuration Guide*, which you can download from ArcSight Customer Support download site.
