Microsoft Active Directory Actor Model Import Release Notes

The Actor Model Import Connector for Microsoft Active Directory imports data from Microsoft Active Directory.

What's New

- New build.
- New RHEL 7.3 platform support.

Supported Platforms

- Microsoft Windows Server 2008 R2, 64-bit
- Microsoft Windows Server 2012 R2, 64-bit
- Red Hat Enterprise Linux (RHEL) 6.9, 64-bit
- Red Hat Enterprise Linux (RHEL) 7.3, 64-bit

See the [ArcSight ESM Support Matrix](#) for detailed platform support information.

Release Contents

The files included in this release are:

File Name	Description
MS_ActiveDirectory_RelNotes_7.7.0.8047.0.pdf	Release notes (this document).
MS_ActiveDirectory_ConfigGuide_7.7.0.8047.0.pdf	Configuration guide.
ArcSight-7.7.0.8047.0- ADActorModelConnector-Linux64.bin	Installer for Linux 64-bit systems.
ArcSight-7.7.0.8047.0- ADActorModelConnector-Win64.exe	Installer for Windows 64-bit systems.

Installing the Actor Model Import Connector for Microsoft Active Directory

Install and use the Actor Model Import Connector for Microsoft Active Directory that is provided with ESM 7.0 release. That is the version of the connector that is tested and certified to work with ESM. Do not use previously-supplied versions of the Actor Model Import Connector with previous versions of ESM.

For information about installing the connector, see the Configuration Guide for the Actor Model Import Connector for Microsoft Active Directory. The guide is available at in the Software Community's ArcSight Product Documentation for [ESM and ESM Express](#).

Known Limitations

The following are known limitations for this connector:

- The connector can send model information to only one ArcSight Manager.
- The LDAP authentication type used between the connector and Active Directory is simple clear-text authentication.
- The connector's JVM might use more than the default 256 MB of memory. If the agent.log file contains an error indicating that the memory is in the yellow zone, increase the JVM memory or contact ArcSight Customer Support for assistance.
- The destination Event Broker is not supported.

Send Documentation Feedback

If you have comments about this document, you can [contact the documentation team](#) by email. If an email client is configured on this system, click the link above and an email window opens with the following information in the subject line:

Feedback on Release Notes (Actor Model Import Connector for Microsoft Active Directory 7.7.0.8047.0)

Just add your feedback to the email and click send.

If no email client is available, copy the information above to a new message in a web mail client, and send your feedback to arc-doc@hpe.com.

We appreciate your feedback!
