

Getting Started with ArcSight Express™ All-in-One

The ArcSight Express All-in-One solution includes a single appliance pre-installed with ArcSight ESM, Logger, SmartConnectors, TRM, and IdentityViewExpress.

In addition to this document, you will need the following documents to install the appliance and connect to it for the first time:

- *Product Information Guide* which is included with ArcSight Express All-in-One
- *ArcSight Express All-in-One Configuration Guide*

Installation Instructions

1. Follow the instructions in the *Product Information Guide* for unpacking ArcSight Express All-in-One and its accompanying accessories.
2. Securely mount the appliance in a rack, and make the rear panel connections.
3. Attach a monitor, keyboard, and mouse to the system.
4. Power on the appliance and wait for the system to boot.

CAUTION

Read through the instructions, cautions, and warnings in the *Product Information Guide* carefully. Failing to do so can result in bodily injury or system malfunction.

Where to go from here

ArcSight Express All-in-One has the Oracle Enterprise Linux operating system installed. When you boot the system for the very first time, you are required to set up the preferences for Oracle Enterprise Linux. When setting preferences in the First Boot Wizard for the Oracle Enterprise Linux, please note that the License agreement you accept is for Oracle Linux only.

- Refer to the *ArcSight Express All-in-One Configuration Guide*, which you can download from ArcSight Customer Support download site.
