

# IDOL Distributed Index Handler

Software Version 12.10.0

## Release Notes

Document Release Date: October 2021  
Software Release Date: October 2021

## Legal notices

### Copyright notice

© Copyright 2021 Micro Focus or one of its affiliates.

The only warranties for products and services of Micro Focus and its affiliates and licensors ("Micro Focus") are as may be set forth in the express warranty statements accompanying such products and services. Nothing herein should be construed as constituting an additional warranty. Micro Focus shall not be liable for technical or editorial errors or omissions contained herein. The information contained herein is subject to change without notice.

## Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for updated documentation, visit <https://www.microfocus.com/support-and-services/documentation/>.

## Support

Visit the [MySupport portal](#) to access contact information and details about the products, services, and support that Micro Focus offers.

This portal also provides customer self-solve capabilities. It gives you a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the MySupport portal to:

- Search for knowledge documents of interest
- Access product documentation
- View software vulnerability alerts
- Enter into discussions with other software customers
- Download software patches
- Manage software licenses, downloads, and support contracts
- Submit and track service requests
- Contact customer support
- View information about all services that Support offers

Many areas of the portal require you to sign in. If you need an account, you can create one when prompted to sign in. To learn about the different access levels the portal uses, see the [Access Levels descriptions](#).

## New in this Release

The following new features were released in Distributed Index Handler version 12.10.0.

- In simple distribution mode, either with or without `DistributeSendMinimal`, you can remove a child Content engine or group and the DIH will automatically redistribute its documents among the remaining servers. To do this, run the `DREREDISTRIBUTE` index action and use the new `RemoveGroup` parameter to specify the ID of the Content engine or group to remove. This feature is not compatible with mirror mode, distribute by reference, distribute by batch, distribute by date, or distribution by field values.
- The third-party libraries `libxml2` and `libxslt` have been updated, to versions 2.9.11 and 1.1.34 respectively.

## Resolved Issues

The following issues were resolved in Distributed Index Handler version 12.10.0.

- Content engines could be incorrectly labeled full, when using OEM licensing and the Content engines started before the DIH was started with `CollectChildFullness=True`.

# Supported Operating System Platforms

Distributed Index Handler 12.10.0 is supported on the following platforms.

## Windows (x86-64)

- Windows Server 2019
- Windows Server 2016
- Windows Server 2012

## Linux (x86-64)

The minimum supported versions of particular distributions are:

- Red Hat Enterprise Linux (RHEL) 6
- CentOS 6
- SuSE Linux Enterprise Server (SLES) 12
- Ubuntu 14.04
- Debian 8

## Solaris (x86-64 and SPARC 64)

**DEPRECATED:** Support for Solaris x86-64 and SPARC 64 was deprecated in IDOL version 12.10, for all IDOL components except KeyView. IDOL components are currently still available for Solaris, but might not be available in future.

- Solaris 11
- Solaris 10

# Documentation

The following documentation was updated for Distributed Index Handler version 12.10.0.

- *Distributed Index Handler Reference*
- *Distributed Index Handler Administration Guide*
