Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

You can check for more recent versions of a document through the [MySupport portal](#). Many areas of the portal, including the one for documentation, require you to sign in with a Software Passport. If you need a Passport, you can create one when prompted to sign in.

Additionally, if you subscribe to the appropriate product support service, you will receive new or updated editions of documentation. Contact your Micro Focus sales representative for details.

Support

Visit the [MySupport portal](#) to access contact information and details about the products, services, and support that Micro Focus offers.

This portal also provides customer self-solve capabilities. It gives you a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the MySupport portal to:

- Search for knowledge documents of interest
- Access product documentation
- View software vulnerability alerts
- Enter into discussions with other software customers
- Download software patches
- Manage software licenses, downloads, and support contracts
- Submit and track service requests
- Contact customer support
- View information about all services that Support offers

Many areas of the portal require you to sign in with a Software Passport. If you need a Passport, you can create one when prompted to sign in. To learn about the different access levels the portal uses, see the [Access Levels descriptions](#).

New in this Release 4

Resolved Issues 5

Supported Operating System Platforms 6

Documentation 7

New in this Release

The following new features were released in OneDrive Connector version 12.3.0.

- The connector has been optimized and completes a synchronize task faster than earlier versions.
- The connector supports progress reporting for the synchronize fetch action. To view the progress of an action that the connector is processing, use the `QueueInfo` action with the parameter `QueueAction=progress`.
- Communications can be secured with TLS version 1.3.

Resolved Issues

There were no resolved issues in OneDrive Connector version 12.3.0.

Supported Operating System Platforms

OneDrive Connector 12.3.0 is supported on the following platforms.
